

The Centre Nautique de l'Istorlet is located in the archipelago of the Îles-de-la-Madeleine, Québec. The Îles-de-la-Madeleine offers a rich Acadian culture and a unique setting where activity and contemplation are in perfect harmony. Situated on the shores of the Baie du Bassin, L'Istorlet offers ideal surroundings for the practice of all water sports, with the added advantage of the water being warmer than at sea. The Centre offers a wide range of activities such as war canoeing, sailing on Caravelle and Laser, snorkelling, kayaking, swimming, mountain biking etc...

The Centre nautique de l'Istorlet is a non profit organisation, founded in 1973. It is both a summer camp and a nautical centre recognized by «Tourisme Québec» and the «Association des Camps du Québec» (1999 evaluation enclosed). We adhere to all standards of security required for all our activities.

Our Centre has been working with schools and organisations such as Canadian Parents for French to offer children French immersion summer camps of 5 or 10 days. Children participate in nautical activities, speaking French throughout their stay at the camp. Teenagers 15 to 17 years old have the privilege of participating in a unique kayaking expedition for 5 days at an interesting student price. This expedition has been extremely popular with teenagers because of its challenge and adventure. In addition to our regular camp schedule we receive school groups in May and June for a minimum of 2 to 5 days. These school groups benefit from all the activities held during our regular camp program.

The Centre nautique de l'Istorlet offers family packages as well. The price includes children's summer camp and parent's activities, meals and accommodations for all. For accommodations, adults have a room while the children sleep in dorms with the other children of the camp. Adults participate in their chosen activity, while the children participate in their group camp activities.

Call our CPF Provincial office 1-877-273-2800 for a brochure or more information.
